## **FOREWORD**

This publication provides data on U.S. international trade in goods and services. Emphasis is on goods trade: aggregate exports and imports, U.S. commodity and country/regional trade balances, and shifts in the commodity composition of U.S. exports and imports with major trading partners and regions. This report is the only U.S. Department of Commerce publication that provides detailed commodity data for exports and imports that are consistent over time.

Aggregate data on international trade in goods are presented on a Balance of Payments (BOP) basis, a Census basis and a National Income and Products Accounts (NIPA) basis, while data on trade in services are presented on a BOP basis and a NIPA basis. The BOP basis provides a more complete view of U.S. international trade, and addresses the increased focus on services trade by policymakers and analysts. U.S. international trade on a NIPA basis is presented for informational and comparative purposes. Detailed country and commodity data are presented on a Census basis -- the only basis compiled at a detailed level.

The types of information included in the tables are:

- U.S. international trade in goods and services on a BOP basis, 1960-96
- U.S. services trade by major category on a BOP basis, 1970-96
- U.S. goods trade with the world for total, manufactures, agricultural products, mineral fuels, and other goods on a Census basis, 1970-96

## METHODOLOGY AND DEFINITIONS

**Methodology:** This publication reports U.S. exports and imports of goods and services. Exports are total goods (domestic and foreign exports or reexports) on a F.a.s. valuation basis, and imports are general imports on a Customs valuation basis -- this is an official U.S. Department of Commerce presentation. Except where noted all values are in current U.S. dollars; data are not seasonally adjusted. Trade statistics are presented on a Census basis, a Balance of Payments (BOP) basis, and on a National Income and Accounts (NIPA) basis. U.S. total trade figures were the latest revised figures available at the time of publication.

U.S. Bureau of the Census data (Census basis) concordances and definitions were used to link the trade figures into consistent time series based on the Harmonized System (HS) of commodity classification. As a result, the 1988 data in this report are estimations based on Census Bureau concordances and allocations that approximate data based on the HS-based Standard International Trade Classification, revision 3 (SITC Rev. 3) commodity codes. Commencing in 1990, U.S. exports to Canada are derived from import data compiled by Canada.

The Bureau of Economic Analysis (BEA) is the source agency for U.S. trade in services. The BEA also converts the Census basis goods trade to a BOP basis to conform to the Balance of Payments accounts concepts and methodology. The BOP basis for goods reflects adjustments for timing, coverage, and valuation to the data compiled by the Census Bureau. The major adjustments concern: military trade of U.S. defense agencies, additional nonmonetary gold transactions, and inland freight in Canada and Mexico. The BOP basis for U.S. trade in goods and services is the official U.S. government presentation. However, due to limited country and commodity data on a BOP basis, most detailed data in this publication are presented on a Census basis.

The BEA also converts U.S. trade in goods and services from the BOP basis to the NIPA basis. The NIPA basis for goods and services reflects adjustments for statistical differences and coverage. The major adjustments concern: the treatment of U.S. territories, Puerto Rico and the Northern Mariana Islands, and nonmonetary gold transactions.

**Definitional Note:** When necessary, country and regional foreign trade data were adjusted to create data series that utilize the same country definitions over time.

Europe consists of Western Europe and Eastern Europe. Western Europe includes the European Union (EU) and non-EU Western Europe. The European Union includes Austria, Belgium/Luxembourg, Denmark, Finland, France, Germany (both East and West), Greece, Ireland, Italy, Netherlands, Portugal (including Azores and the Madeira Islands), Spain (including Spanish Africa and the Canary Islands), Sweden, and the United Kingdom.

The non-EU countries in Western Europe include Cyprus, Gibraltar, Iceland, Malta, Norway, Switzerland, Turkey, Yugoslavia (former), and, after 1987, other non-EU Western Europe (Andorra, Faroe Islands, Liechtenstein, Monaco, San Marino, Svalbard and Jan Mayen Island, and Vatican City).

In June 1992 the U.S. Bureau of the Census began to report trade figures for the new republics of the former Yugoslavia; therefore 1992 trade figures do not reflect the entire year for these republics. However, 1992 trade figures for Yugoslavia (former) do reflect the entire year. Yugoslavia (former) consists of Bosnia-Herzegovina, Croatia, Macedonia, Serbia and Montenegro, and Slovenia.

Eastern Europe includes Albania, Bulgaria, Czech Republic and Slovakia (former Czechoslovakia), Hungary, Poland, Romania and the Former Soviet Republics. The Former Soviet Republics consist of Armenia, Azerbaijan, Belarus, Estonia, Georgia, Kazakhstan, Kyrgyzstan, Latvia, Lithuania, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine and Uzbekistan.

In January 1992 the U.S. Bureau of the Census began to report trade figures for Estonia, Latvia and Lithuania. In February 1992 the U.S. Bureau of the Census began to report trade figures for the other republics of the former USSR; therefore, 1992 trade figures do not reflect the entire year for these republics. However, the 1992 total trade figure for the Former Soviet Republics does reflect the entire year.

The Western Hemisphere includes all countries of the Western Hemisphere except for the United States. The Caribbean Basin

Initiative countries consist of the Caribbean countries and the Central American countries. The Caribbean countries include the Bahamas, Barbados, Belize, Cayman Islands, Dominican Republic, Guyana, Haiti, Jamaica, Leeward and Windward Islands (i.e., Antigua, British Virgin Islands, Dominica, Grenada, Montserrat, St. Christopher-Nevis and Anguilla, St. Lucia, and St. Vincent), Netherlands Antilles and Aruba, Suriname, Trinidad and Tobago, and Turks and Caicos Islands. The Central American countries consist of Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua, and Panama.

The countries of South America are Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, Paraguay, Peru, Uruguay, and Venezuela. The other countries of the Western Hemisphere include Bermuda, Cuba, Falkland Islands, French Guiana, French West Indies (i.e., Guadeloupe and Martinique), Greenland, and St. Pierre and Miquelon.

Asia includes Japan, China, the East Asian Newly Industrialized Countries (NICs), the Middle East and Other Asia. The NICs include Hong Kong, Singapore, South Korea, and Taiwan. The Middle East includes Bahrain, Iran, Iraq, Israel (including the Gaza Strip and the West Bank), Jordan, Kuwait, Lebanon, the Neutral Zone, Oman, Qatar, Saudi Arabia, Syria, United Arab Emirates and the Yemen Arab Republic. The other Asia countries are Afghanistan, Bangladesh, Brunei, Burma, Cambodia, India, Indonesia, North Korea, Laos, Macao, Malaysia, Mongolia, Nepal, Pakistan, Philippines, Sri Lanka, Thailand, Vietnam and Southern Asia NEC (not elsewhere classified). Southern Asia NEC includes Bhutan and Maldives Islands.

Australia and Oceania consists of: Australia, Australian island dependencies (i.e., Christmas Island, Cocos Island, Heard and McDonald Islands, and Norfolk Island), French Pacific Islands (i.e., French Polynesia, New Caledonia, and Wallis and Futuna), New Zealand, New Zealand island dependencies (i.e., Cook Islands, Niue, and Tokelau Islands), Papua New Guinea, Southern Pacific Islands (i.e., Kiribati, Pitcairn Island, Solomon Islands, Tuvalu, and Vanuatu), Former Trust Territory (i.e., Federated States of Micronesia, Marshall Islands, and Palau), Western Samoa, and Other Pacific Islands NEC (i.e., Fiji, Nauru, and Tonga).

Africa consists of all the countries on the continent. French Indian Ocean areas include Reunion and French Southern and Antarctic Lands. Western Africa NEC includes Cape Verde, Guinea-Bissau, and Sao Tome and Principe. In January 1993 the U.S. Bureau of the Census began to report trade figures for Eritrea.

The developed countries of the world include Canada, Japan, all the countries of Western Europe, Australia, New Zealand, and the Republic of South Africa. Developing countries include all other countries. For a variety of reasons, U.S. trade with the World does not equal the sum of trade with the developed and developing countries. Trade with international organizations is not included in either the developed countries or the developing

countries groupings.

The Organization of Petroleum Exporting Countries (OPEC) consist of Algeria, Gabon, Indonesia, Iran, Iraq, Kuwait, Libya, Nigeria, Qatar, Saudi Arabia, United Arab Emirates and Venezuela. Ecuador was a member until 1993; data have been adjusted for all years prior to 1993 to create a consistent time series. OPEC countries are included in developing countries.

The eighteen Big Emerging Markets (BEMs), an International Trade Administration designation, include Argentina, Brazil, Brunei, China, Hong Kong, India, Indonesia, Malaysia, Mexico, Philippines, Poland, Singapore, South Korea, South Africa, Taiwan, Thailand, Turkey, and Vietnam. Except for South Africa, the BEMs are developing countries.

The seven Association of Southeast Asian Nations (ASEAN) members are Brunei, Indonesia, Malaysia, Philippines, Singapore, Thailand, and Vietnam. Burma, Cambodia, and Laos joined the ASEAN in July 1997 and will be included as members in next year's edition.

The eighteen Asian Pacific Economic Cooperation (APEC) countries are Australia, Brunei, Canada, Chile, China, Hong Kong, Indonesia, Japan, Malaysia, Mexico, New Zealand, Papua New Guinea, Philippines, Singapore, South Korea, Taiwan, Thailand, and the United States.

The eight Asian Newly Industrializing Countries (ASIAN NICs) consist of China, Hong Kong, Indonesia, Malaysia, Singapore, South Korea, Taiwan, and Thailand.

**Changes:** There are four new tables (29, 33-35) in this edition. Table 29 presents values for 1983-96 for the areas shown in Tables 30-32. Tables 33-35 present data by the two-digit HS classification. The HS system is the one used by the U.S. government to collect trade data.

Starting with this issue, the Gaza Strip and West Bank are listed separately rather than included with Israel. In May 1997, Zaire became the Democratic Republic of the Congo.

Note: Compiled from official statistics of the U.S. Department of Commerce, Bureau of the Census. Data are subject to revisions. Data reflect all revisions through June 1997. Data for 1993-98 are estimated, based on the Harmonized System of commodity classification. Data before 1983 are on a Schedule A/E basis and have been adjusted to match the latest trade definitions as closely as possible.

- 1 Includes nonmonetary gold, military grant aid, special category shipments, trade between the U.S. Virgin Islands and foreign countries, and undocumented exports to Canada. Adjustments were also made for carryover. Import values are based on transaction prices whenever possible ("f.a.s." for 1974-1979 and Customs value thereafter). Import data before 1974 do not exist on a transaction price valuation basis.
- 2 Manufactured goods include commodity sections 5-9 under Schedules A and E for 1970-1982 and SITC Rev. 3 for 1983-forward. Manufactures include undocumented exports to Canada, nonmonetary gold (excluding gold ore, scrap, and base bullion), and special category shipments.
- 3 Data for 1970-1980 exclude trade between the U.S. Virgin Islands and foreign countries. Census data concordances link the 1980-1992 trade figures into time series that are consistent as possible. Data for 1970-1979 are not linked and are from published sources. Import values are "f.a.s." for 1974-1979 and Customs value thereafter; these values are based on transaction prices while maintaining the data series as consistent as possible over time. Import data before 1974 do not exist on a transaction price valuation basis.
- 4 Agricultural products for 1983-forward utilize the latest Census definition that excludes manufactured goods that were previously classified as manufactured agricultural products.
- 5 Mineral fuels include commodity section 3 under SITC Rev. 1 for 1970-1976, SITC Rev. 2 for 1977-1982 and SITC Rev. 3 for 1983-forward.
- 6 These data for 1983 are on the old (non Harmonized System) basis of commodity classification.

Note: Compiled from official statistics of the U.S. Department of Commerce, Bureau of Economic Analysis. Data reflect revisions through June 1997. National Income and Products Accounts (NIPA) basis for goods and services reflects adjustments for statistical differences and coverage to the Balance of Payments (BOP) basis. The major adjustments concern the treatment of U.S. territories, Puerto Rico and the Northern Mariana Islands and nonmonetary gold transactions. Goods valuation are F.a.s. for exports and Customs value for imports. Totals will not always equal the sum of the components because of rounding and use of the chained price methodology.
